Github Linkedin Portfolio

Career Object

A highly motivated and passionate Junior Frontend Developer with expertise in HTML, SCSS, JavaScript, React, and modern web technologies. Eager to contribute my skills in building responsive and user-friendly applications while continuously learning and growing in full-stack development. My goal is to create scalable, interactive, and visually appealing web experiences.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Tailwind CSS, JavaScript
Backend: Node.js, Express.js, MongoDB, Mongoose, JWT, REST APIs
Tools & Others: Git, GitHub, Postman

PROJECTS

Employee Management (Full Stack) :   Live | Client | Server

Full-stack role-based employee management system with React, Node.js, MongoDB & Firebase—includes JWT auth, dynamic dashboards, real-time charts, and modern UI using Flowbite & Shadcn.

Key Fetures:
- Implemented role-based authentication with Firebase, JWT, and secure route protection.
- Integrated Stripe payments and dynamic dashboards tailored to Admin, HR, and Employee roles.
- Enabled real-time updates, error validation, and theme toggling using React Query and Tailwind.

ChronicleInk News Portal (Full Stack) :   Live | Client | Server

ChronicleInk – A MERN & Firebase-powered news platform with JWT auth, role-based dashboards, article publishing, premium subscriptions, and a responsive, real-time user experience.

Key Fetures:
- Firebase Auth with role-based access and JWT-secured APIs.
- Premium content system with article publishing and admin moderation.
- Responsive UI with Tailwind, charts via Google Charts, and light/dark mode support.

ServiSphere (Full Stack) :   Live | Client | Server

A full-stack service booking app with role-based access, Firebase authentication, and dynamic service management features.

Key Fetures:
- Firebase authentication with role-based dashboards (User, Provider, Admin)
- Service booking with status management and category filtering.
- Dark mode UI with detailed service views and booking control

EDUCATION

Bachelor of Arts (B.A.)
Jawa Bazar Degree college, Sunamganj
(Expected Graduation: 2027)
Actively learning modern web development technologies alongside academic studies.
Continuously improving skills in problem-solving, UI design, and full-stack web development through online courses and self-practice.
Passionate about applying technical knowledge in practical projects and freelancing opportunities.

Languages: English, Hindi, Bangla.
